

# DesignLine™ hybrid

introducing

# 4+ more

one island. four powerful presentations.

## more value.

This new 20'x20' DesignLine hybrid display from Nomadic features everything you need to exhibit with large-impact format tension fabric graphics, attention-grabbing plasma presentations, computer demonstration monitors, product merchandise shelving, a semi-private conference room, 144 cubic feet of centralized storage and lockable counters. The system's quick, easy set-up reduces labor expenses, while its lightweight modularity saves on storage, transportation and drayage, allowing DesignLine to deliver incredible value for your display investment.

## more service.

Nomadic's got you covered. Whether your business takes you around the corner or around the globe, you can depend on the Nomadic LifeLine™ 24 hour emergency helpline when you need it most. We're there whenever you need us. And DesignLine is backed by the industry's best warranty. Engineering tests prove our Platinum custom modular panels are two times stronger than other brands. Comprised of welded aluminum frames with galvanized steel backing, Platinum offers unrivaled protection against chips, cracks, dents and punctures. Nomadic will repair or replace your system due to defective materials or workmanship for a lifetime of ownership.

## more possibilities.

The unique, modular engineering of Nomadic's DesignLine hybrid system gives you the versatility to repurpose the system to fit a variety of applications. Transform the island into a series of configurations including a kiosk, 10' backwall or 10'x20' inline with a reception counter. And magnetic graphics float anywhere on the laminated surface of Platinum panels to give you the freedom and flexibility to target your messages without dedicated or permanent attachment.
